

KALYAN PARVATHAM

Data Analyst | AI & ML

Karimnagar, Telangana | +91-7032912065 | kalyanparvathamkalyan@gmail.com

LinkedIn: linkedin.com/in/kalyanparvatham476619299

PROFESSIONAL SUMMARY

B.Tech graduate in Computer Science (AI & ML) with hands-on experience in data analysis, Python programming, SQL, Power BI, Excel, data cleaning, EDA, data mining, visualization, and fintech analytics. Experienced in preparing datasets, building dashboards, designing SQL databases, generating business metrics, and developing predictive models. Completed internships across data analytics, fintech, Python development, and web development. Seeking an entry-level Data Analyst opportunity to apply analytical and problem-solving skills.

TECHNICAL SKILLS

Programming: Python, SQL | Python Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, XGBoost, OpenCV | Data Analytics: EDA, Data Cleaning, Data Mining, Statistical Analysis, Feature Engineering, Data Visualization | BI: Power BI, Microsoft Excel | Databases: MySQL, SQLite, Relational Databases | Tools: Git, VS Code

PROFESSIONAL EXPERIENCE

Data Analyst Intern — Bluestock Fintech | Remote | Jun 2026 - Aug 2026

- Worked on a Mutual Fund Analytics Platform as part of a capstone project team, contributing to an end-to-end data pipeline.
- Performed data cleaning, transformation, and validation on financial datasets using Python, Pandas, and SQLite.
- Designed normalized SQLite database schemas to organize mutual fund performance and financial data.
- Applied SQL joins, aggregations, filtering, and queries to derive mutual fund KPIs and performance metrics.
- Collaborated with a cross-functional team to develop analytics features aligned with fintech business requirements.

Data Analyst Intern — Uptoskills | Hyderabad | Aug 2025 - Nov 2025

- Built interactive Power BI dashboards to track and visualize key business trends for faster stakeholder decision-making.
- Cleaned and prepared real business datasets before analysis and reporting.
- Performed exploratory data analysis to identify trends, patterns, and actionable business insights.
- Applied data mining techniques to support business intelligence and reporting requirements.

Web Developer Intern — VaultofCode | Hyderabad | Apr 2025 - Jun 2025

- Developed frontend and backend components using React and Node.js for client-facing web applications.
- Worked with relational databases and REST APIs in a full-stack client-server environment.

Python Developer Intern — ECODE Learning Software Services | Hyderabad | Jun 2024 - Nov 2024

- Implemented Python-based automation and data-processing scripts while improving code quality and debugging skills.
- Used Pandas, NumPy, and Matplotlib for data manipulation, analysis, visualization, and scripting workflows.

PROJECTS

Mutual Fund Analytics Platform | Python, SQLite, Pandas, Flask | Jun 2026 - Present

- Developing a platform to analyze mutual fund NAV trends, returns, and risk metrics using structured financial data.
- Designed the SQLite database schema, cleaned raw financial data, and developed SQL queries for fund performance reports.
- Working in a 3-member project team under project manager guidance to implement analytics functionality.

Stock Market Prediction — XGBoost + Pearson Correlation | Python, XGBoost, Scikit-learn | 2025 - 2026

- Built a hybrid machine learning model combining XGBoost classification with Pearson Correlation for feature selection.
- Achieved 93.17% reported accuracy and performed feature engineering, correlation analysis, and hyperparameter tuning.
- Co-authored a research paper submitted for Scopus-indexed conference publication.

Density-Based Smart Traffic System | Python, OpenCV, Canny Edge Detection | Jan 2025 - Jun 2025

- Implemented real-time traffic-density analysis by processing image frames with computer-vision techniques.
- Converted traffic image data into quantifiable metrics for pattern analysis and adaptive signal-control logic.

Student Data Analysis Dashboard | Excel, Power BI | Jan 2025 - Jun 2025

- Collected, cleaned, and organized B.Tech student data from multiple sources using Excel for Power BI reporting.
- Created interactive dashboards and insight reports to communicate analytical findings to academic stakeholders.

Analysis of Learning Behaviour & Prediction of Learning Effect | Python, EDA, Data Analysis | Jun 2025 - Dec 2025

- Analyzed student learning patterns using statistical techniques and EDA to identify behavioural trends related to academic performance.

EDUCATION

B.Tech — Computer Science Engineering (AI & ML) | CMR Institute of Technology, Hyderabad | 2022 - 2026 | CGPA: 7.21/10

Intermediate | Govt Junior College, Siddipet | CGPA: 6.9/10

Secondary School | GHS Ramanagar, Karimnagar | CGPA: 9.2/10

CERTIFICATIONS & TRAINING

ChatGPT 101 - SkillUp (80/100) — Prompt Engineering, Structured Queries, AI Tool Usage | Freedom with AI Masterclass - Prompt Engineering (70/100) | Web Development Certification (95/100) | CMR Training Program — Python, C, C++, Java, Data Structures & Algorithms, Logical Reasoning

CORE COMPETENCIES

Data Analysis • Data Cleaning • Data Visualization • SQL • Python • Pandas • NumPy • Power BI • Excel • EDA • Statistical Analysis • Machine Learning • SQLite • MySQL • Dashboard Development • Fintech Analytics • Predictive Modelling • Business Intelligence • ETL • Data Pipeline • Report Generation
